FILM PERFORMANCE

See the difference Panorama Hilite 70 window film makes when professionally installed to standard 1/8" (3mm) clear glass windows.

LEGEND

- without film
- with Panorama Hilite 70 window film

Maintains maximum Visible Light Transmission to keep your environment naturally sunlit. Plus, the 99% blockage of Ultraviolet Light provides a partial deterrent to premature skin aging and some potential skin cancers. Keep It Safe.

Blocks 99% of Ultraviolet Light and a significant amount of Solar Heat from your indoors to prolong the customized appearance and value of your property's interior. Keep It New.

Rejects a high level of Total Solar Energy from transmitting inside, offering you strong protection against uncomfortable heat, hotspots, and uneven temperature fluctuations. Keep It Cool.
